PACE can provide the entire continuum of care and services to seniors with chronic care needs while maintaining their independence in their homes for as long as safely possible. Medical care is provided by an Inter-Disciplinary Team (IDT) to case manage services provided or arranged by the PACE organization for each participant.

#### IMPORTANT CONSIDERATIONS

- Medicaid recipients and individuals who are dually eligible may request PACE services through their local DSS
- All services are provided directly by the program and through its provider network.
- PACE will only pay for services which have been pre-approved by the Interdisciplinary Team (IDT)
- Individuals enrolled in PACE who move outside the service area will no longer be eligible for PACE services unless the move is to another program's service area.
- Only a small percentage of PACE participants reside in a nursing facility, even though all must be certified to need nursing facility level of care. If a PACE recipient needs nursing facility care, as determined by the IDT's assessments, the PACE program will pay for it and continue to coordinate the individuals care with the facility.
- A participant's PACE enrollment is effective the first day of the calendar month following the date the PACE organization received the signed enrollment agreement.
- PACE IDT members will perform periodic assessments while the individual is in the nursing facility.
